# Our History

---

The creation of "Cheeky Kea" all started amongst a couple of friends away in the seaside town of Kaikoura. With the original idea being a travelling language school for Japanese/English students studying in New Zealand, we wanted to set ourselves apart from others. When COVID came along everything changed. Our love for traveling, landscapes and history led us to take a whole different approach and create a company that represented who we are, we wanted to provide 100% authentic kiwi experiences at affordable prices. We decided to take a leap and stick to our core values and beliefs by sharing the knowledge of our beautiful home country with others while keeping the environmental impact as low as possible.
